**TENANT NOTICE #4  
SHORT RUNWAY REHAB  
and FULL CLOSURE**

TO: Airport Tenants

FM: Cynthia Stewart, Airport Manager

RE: Runway 13L – 31R Rehabilitation Project – Activities and Closures

On Saturday, September 29, 2001, the Airport will need to be closed (both runways) for the bulk of the day. The purposes of this closure are as follows:

- The work on the short runway that we've described previously is still in progress
- There is no positive drainage for a large area at mid field on the long runway that will be a severe safety hazard when freezing temperatures begin if not addressed; pavement work to restore drainage is essential
- Excavation is needed for drainage and to connect electrical service between the short runway and the Air Traffic Control Tower.

Much of this work is in the most inconvenient area of all – the approximate middle of the long runway length (around intersection taxiways B-4 and B-5). However, the opportunity to get this work done during anticipated good construction weather and concurrently will allow us to avoid additional closures later.

**9:30 a.m., Saturday, September 29, 2001**

**to**

**7:00 a.m., Sunday, September 30, 2001**

**Full closure of short runway, 13L/31R**

**Approximately 4000 feet at the southernmost end of the Main Runway  
13R/31L will be available throughout this period**

**Please watch NOTAMS for additional specifics and possible changes.**

We recognize the extreme inconvenience this presents to many of you. The schedule was designed with as many of your needs in mind as could possibly be accommodated – and we sincerely apologize for the remaining impacts on you.

Additional notices will be issued as the project progresses and we have more specifics. As before, the purpose of this notice is to provide you with as much advance information as possible; but **PLEASE WATCH THE NOTAMS FOR CHANGING DETAILS.**

If you have any questions, please feel free to contact me at (206) 296-7380.

Thank you again for your patience during this improvement project.
